Submission number 2013/10

15 March 2013

**ATO SUPER TAX FILE NUMBER INTEGRITY CHECK (STIC)
MESSAGE IMPLEMENTATION GUIDE (MIG)**

The ASFA submission recognises the benefits that the STIC service will provide to the superannuation industry and to members of superannuation funds but raises concerns in the following areas:

- Inconsistencies in presentation with other SuperStream MIGS
- the proposal to split date of birth into three separate fields (Day of Birth, Month of Birth and Year of Birth)
- Lack of information on ATO processes that members could use to correct their data with the ATO
- Differences in address formats between this MIG and the Rollover and Contributions MIGs
